Course Description: This course will involve students performing a variety of movement patterns within organized activities. Students will begin to demonstrate controlled manipulative skills. Emphasis will be placed on the value of health-related fitness activities and concepts; and students will recognize the importance of personal responsibility in relation to safe and appropriate participation.

The physically educated student has developmentally appropriate grade-level comprehension and application of the concepts and principles of fitness, motor skills, movement patterns, tactics, and strategies which contribute to a physically literate and active lifestyle.

Motor Skills and Movement Patterns

PE3.1 The physically educated student demonstrates competency in a variety of motor skills and movement patterns.

Locomotor

- a. Demonstrates fleeing, dodging, and chasing skills during game play.
- b. Performs a leap using a mature pattern.
- c. Travels differentiating between speeds. (jogging, sprinting, and running).
- d. Jumps and lands on feet for height and distance.
- e. Transfers weight while traveling in a variety of directions, levels, and pathways.

Non-Locomotor

- f. Balances on different bases of support demonstrating various levels and shapes.
- g. Demonstrates various step patterns and combinations of movement patterns in repeatable rhythmic sequences.
- h. Throws underhand to partner/target with a mature form (facing target, stepping with opposition, transferring weight, and following through).
- i. Throws overhand for distance and/or force using critical cues (stepping with opposition and side to target, transferring weight, and following through).
- j. Catches an object tossed from a partner.
- k. Dribbles with dominate/non-dominate hand while traveling at various speeds and while keeping the ball under control.
- l. Dribbles with the feet while traveling at slow to moderate speeds and while keeping the ball under control.
- m. Runs to kick a stationary ball at a target.
- n. Uses a continuous running approach to kick the ball on the ground (inside of foot) and in the air (shoe laces) while demonstrating mature kicking form (keeping eye on the ball, stepping with opposite foot next to ball, contacting the ball with dominant foot, following through).

Physical Education Georgia Standards of Excellence

- d. Recognizes the concept of open spaces in a movement setting.
- e. Incorporates movement concepts (direction, levels, time, and force) with skills as directed by the teacher.
- f. Applies simple strategies and/or tactics in chasing, fleeing, and dodging activities.

Fitness

PE3.3 The physically educated student demonstrates knowledge and skills to help achieve and maintain a health-enhancing level of physical activity and fitness.
